ROSS HULL MEMORIAL VHF-UHF CONTEST

The WIA maintains a perpetual trophy in honour of the late Ross A. Hull and his pioneering achievements in VHF and UHF operation. The name of each year's contest winner is engraved on the trophy, and all entrants receive a copy of the results and a personalised certificate.

The contest is held annually in January. It covers all bands from 50 MHz up, and it is open to all amateurs. The rules are published each year in October or November "Amateur Radio" magazine, and on the WIA web site:
