

## NOTICE – IOWave25 Tsunami Readiness Exercise

From: The Radio Society of Sri Lanka (RSSL)

Date: 4 November 2025

The Indian Ocean Wave Exercise (IOWave25), coordinated by UNESCO-IOC / ICG-IOTWMS, will be conducted on 5 November 2025 to test tsunami preparedness and communication readiness across Indian Ocean nations.

The Radio Society of Sri Lanka (RSSL) will support the Disaster Management Centre (DMC) by operating HF and VHF emergency communication networks during the exercise.

We kindly request all IARU Region 3 societies and stations to keep the following HF frequencies clear and give priority to EmComm traffic related to the exercise between 0800–1600 LKT (0230–1030 UTC).

Your cooperation is appreciated to help maintain clear frequencies for emergency communication testing.

Sri Lanka Disaster Communication Plan / Frequency Coordination						
NAME	BAND	FREQ	TAG	TIME	COVERAGE	REMARK
7.060 MHz LSB	40M	7.060 MHz	HF 01	DAY /NIGHT	Islandwide	40m Primary
7.065 MHz LSB	40M	7.065 MHz	HF 02	DAY	Islandwide	40m Secondary
7.110 MHz LSB	40M	7.110 MHz	HF 03	DAY	Islandwide	IARU 40m Emergency freq
3.600 MHz LSB	80M	3.600 MHz	HF 04	DAY/NIGHT	Islandwide	80m primary /IARU 80m Emg freq
3.605 MHz LSB	80M	3.605 MHz	HF 05	NIGHT	Islandwide	80m Secondary
