Don't agree with the 9 points for the 4-char grid scoring(versus about 1200) - where we have no control over how many chars they give out. They don't know whether Div1 or Div2 ??

I activated Mt Trickett (SOTA VK2/CT-002) for the Summer VHF-UHF Field Day. A ZS6BKW doublet was used for 6m and a 3-element tape measure beam for 2m. A KX3 was used barefoot on 6m, and for 2m a 40W amp was deployed. On 70cm a VX-7R 5W hand-held was used with a whip. The weather was fine and sunny with a light breeze. A total of 66 contacts including HF were made from the summit. Contact counts on VHF-UHF were lower than expected.
