SOAPBOX

VK2MB The Manly Warringah Radio Society operated portable at the Terry Hills Weather station which is co-located with the Pony Club and BMX track. A great day was had by all.

VK2SRC

SOAPBOX: Wet start to the event but fine weather for the end. Limited VK4 stations due to wet weather to the north.

VK2XI Thanks for a great contest.

VK3DRH As a roving station when I have moved into a new grid calls go unanswered if I'm within the 2-hour repeat window for previously worked stations. Which means we all miss out on points to add to our contest scores. Unfortunately when packing to move between grids a gust of wind toppled my 2m/70cm yagi damaging it so I was limited to 23cm for part of the contest. Otherwise an enjoyable contest.

VK3ER Activity down on previous years due to weather and poorer tropospheric conditions. However SHF signals remained viable up to 24 GHz despite heavy rain clouds

VK6KQ Had a goodtime in the bush but so few to chat to!

VK7KPC Mobile on Saturday. Tried again Sunday morning, no stations heard

VL3E (VK3TZ) 1296 antenna was not working well at all, VSWR of 5:1 or more. But still managed a few contacts up there
