VK WINTER FIELD DAY DIVISION 2 RESULTS

The Winter Field Day this year had two divisions with the usual Grid Square scoring & this year the WIA has added a Distance Based scoring division which has been trialed as well.

As usual with a new concept there have been some minor hiccups which have mostly been overcome.

I must thank Mike VK3AVV for his support in writing the scoring program for Division Two & his support in getting the results checked & adding a few extra details in the results for each station, such as average distance per contact over the entire Field Day log, so each operator will be able to check this added feature out. With Mike being able to check the validity of each contact, some contacts have been removed from the scoring in some instances.

If you have any suggestions on improvements for future Field Days Division 2 scoring or general comments where there can be improvement please get in contact with me, so we can make alterations if it is felt that it will make these better Field Days. Thanks for the solid support for Distance Based scoring in the Winter Field Day.

Congratulations to all the winners of the various sections & to all other participants who braved the cold weather in the Southern parts of Australia to go out portable.

Please note that the top score in Section D was VK5LZ The Elizabeth Amateur Radio Club, but as they won the 24hr section & under the Contest rules they were not eligible to win both sections.

73 Colin Hutchesson VK5DK
